SUMMARY

Full-stack web developer with an attraction to problem solving and overcoming challenges. Brings to the table such skills as flexibility, perseverance, the ability to break down complex ideas and explain them in more basic terms. Experienced with detailed planning and adapting to new conditions as needed. Possesses strong written and oral communication skills. Demonstrates patience to work with upset clients in a professional, calm, and effective manner.

SKILLS

HTML, CSS, JavaScript, JQuery, Node.js, Nodemon, Express, MySQL, Sequelize, MongoDB, Mongoose, and React
Familiar with the use of web based grading programs, Google Apps, Zoom, and Google Meet

PROJECTS

Dev Fit Gym Logistical Tracker App - Gym Management Application for Client, Trainer, and Manager use

- Built the front end using HTML, CSS, JavaScript, and React, integrated PayPal, and worked closely with back-end team to make sure UI worked smoothly with Mongo database through API calls & Mongoose.
- <https://github.com/smanter82/Devfit> | <https://dev-fit-gym-app.herokuapp.com/>

Hiker Helper - Hiking app with an anticipated audience of novice hikers in New Hampshire during COVID pandemic

- Worked with JavaScript to pull data from third-party API's such as hikingproject.com
- <https://github.com/smanter82/HikerHelper> | <https://smanter82.github.io/HikerHelper/>

Weather Dashboard - Application used to check weather in various locations to aid in a smooth travel experience

- Used HTML, CSS, & JavaScript & pulled data from third-party API to populate today's weather and 5-day forecast.
